Additional strategies employed to support students:

- ‘Rising Stars’ programme looking at whole topic approaches to literacy, Maths and PSHE to target students with lowest KS2 scores.
- ‘Language for Learning’ programme – taught intervention with a focus on comprehension, inference and vocabulary building.
- ‘Talking Maths’ course with small group to develop students’ understanding of the language of Maths.
- Small group Maths intervention focussed on the identified constructs which are the biggest barriers to learning.
- Synthetic phonics programme to help develop decoding and encoding skills (students with a reading and/or spelling age of less than 10 years).
- ‘Accelerated Reader’ programme with additional guided reading in lesson time from teaching assistants and support with completion of quizzes for vulnerable students.
- Homework club with teaching assistant support.

Impact monitored and evaluated at each data entry point in the year.
