

Bridgnorth Endowed School Chromebook Programme

OUR PROGRAMME SO FAR

Bridgnorth Endowed embarked on its first 1:1 Programme with its Year 7 and 8 students in September 2018. These laptops have been in use since then and we are already starting to see the benefits of students being able to learn, collaborate and interact in new and innovative ways.

The support from parents has been good and the take up has exceeded expectations. As we move to being fully cloud based, we have been reviewing the programme, the vision being for our students to have the freedom to access the network whilst in school and to use their device freely whilst at home. We are happy to say that these new devices allow for this to happen.

Our vision is very clear in that every student at Bridgnorth Endowed will have their own device enabling a vital link between learning at school and at home.

THE EQUIPMENT ON OFFER

We have selected three Chromebook devices which are best suited to enhance the learning experience of our students.

These devices are specifically designed for student use with a ruggedised outer casing and enhanced specification to ensure that they withstand all functional requirements. Each device is also supplied with a 3 Year extended warranty and 3 Year insurance for accidental damage and theft with £0 excess giving complete peace of mind.

WHY CHROMEBOOKS?

Chromebooks are extremely secure, easy to use and facilitate both independent study and online collaboration. Through the use of Google Classroom and Office 365 we are able to further improve student engagement and open the door to learning.

The Chromebooks with Google Classroom and Office 365 ensure that all students are able to access all of the same resources, applications, wherever they are in the world and enable teachers to deliver the curriculum in the most exciting and engaging way whilst also keeping them safe and secure.
