1. Aims

Our school aims to:

- Provide and maintain a safe and healthy environment
- Establish and maintain safe working procedures amongst staff, pupils and all visitors to the school site
- Have robust procedures in place in case of emergencies
- Ensure that the premises and equipment are maintained safely, and are regularly inspected

2. Legislation

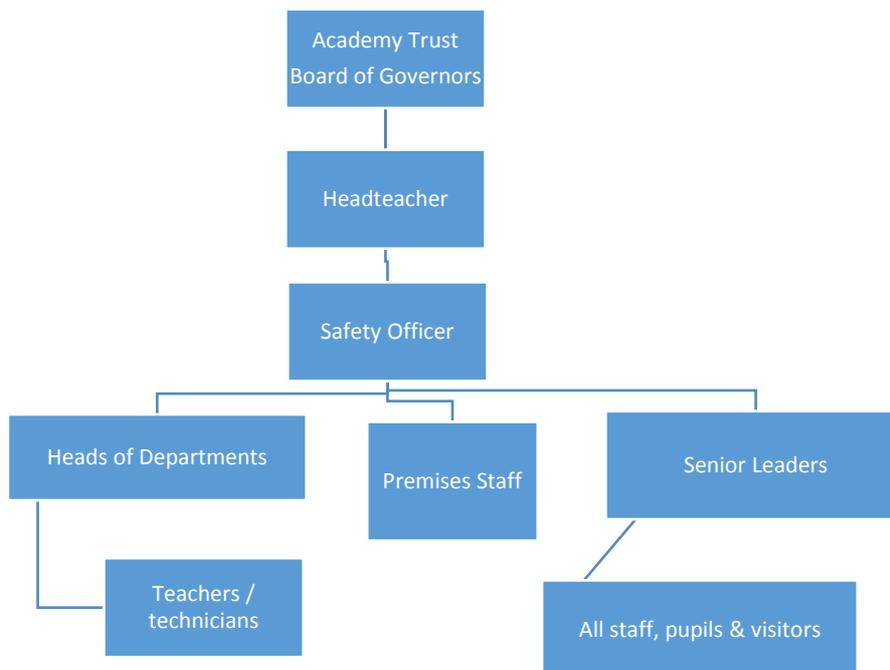

This policy is based on advice from the Department for Education on [health and safety in schools](#) and the following legislation:

- [The Health and Safety at Work etc. Act 1974](#), which sets out the general duties employers have towards employees and duties relating to lettings
- [The Management of Health and Safety at Work Regulations 1992](#), which require employers to make an assessment of the risks to the health and safety of their employees
- [The Management of Health and Safety at Work Regulations 1999](#), which require employers to carry out risk assessments, make arrangements to implement necessary measures, and arrange for appropriate information and training
- [The Control of Substances Hazardous to Health Regulations 2002](#), which require employers to control substances that are hazardous to health
- [The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations \(RIDDOR\) 2013](#), which state that some accidents must be reported to the Health and Safety Executive and set out the timeframe for this and how long records of such accidents must be kept
- [The Health and Safety \(Display Screen Equipment\) Regulations 1992](#), which require employers to carry out digital screen equipment assessments and states users' entitlement to an eyesight test
- [The Gas Safety \(Installation and Use\) Regulations 1998](#), which require work on gas fittings to be carried out by someone on the Gas Safe Register
- [The Regulatory Reform \(Fire Safety\) Order 2005](#), which requires employers to take general fire precautions to ensure the safety of their staff
- [The Work at Height Regulations 2005](#), which requires employers to protect their staff from falls from height

The school follows [national guidance published by Public Health England](#) when responding to infection control issues.

This policy complies with our funding agreement and articles of association.

3. Roles and responsibilities

3.1 The governing board (employers)

The governing board has ultimate responsibility for health and safety matters in the school, but will delegate day-to-day responsibility to the headteacher. However overall legal responsibility for the health and safety of employees and others cannot be delegated and remains the responsibility of the employer.

The governing board has a duty to take reasonable steps to ensure that staff and pupils are not exposed to risks to their health and safety. This applies to activities on or off the school premises.

The governing body as the employer, also has a duty to:

- Assess the risks to staff and others affected by school activities in order to identify and introduce the health and safety measures necessary to manage those risks
- Check that the control measures have been implemented and remain appropriate and effective e.g. maintenance / compliance records
- Inform employees about risks and the measures in place to manage them, including access to competent health and safety advice where needed
- Ensure that those appointed and charged with responsibility of implementing the school Health and Safety policy and its arrangements will be adequately trained to fulfil their duties
- Ensure that adequate health and safety training is provided
- Take reasonable steps to make sure that the school is following the employer's policy and procedures e.g. ensuring that Health and Safety is put on the agenda of every Governor meeting
- Work in close partnership with the headteacher and senior management team to support sensible health and safety management and to challenge as appropriate

The governor who oversees health and safety is David Seipel.

3.2 Headteacher

The headteacher is responsible for health and safety day-to-day. This involves:

- Implementing the health and safety policy
- Ensuring there is enough staff to safely supervise pupils

- Ensuring that the school building and premises are safe and regularly inspected
- Providing adequate training for school staff
- Reporting to the governing board on health and safety matters
- Ensuring that in their absence, health and safety responsibilities are delegated to another member of staff
- Ensuring the implementation of the School Safety Policy and will liaise with the Governors to ensure full compliance with its requirements
- Appointing persons as listed so as to deal with the day to day issues on Health, Safety and Welfare
- Periodically reviewing the school Policy on Health and Safety and draft amendments to it whenever necessary;
- Monitoring the safety performance of the school and take such steps as may be necessary to improve the performance;
- Ensuring that all Employees are supplied with a copy of the statement and are aware of their responsibilities as determined by the Policy, particularly those parts of the Safety Policy which affect them or the responsibilities that are individually allocated;
- Ensuring that effective channels of communication and consultation with employees and safety representatives are maintained;
- Responsibility for the provision of the Health and Safety Training for employees, in order for them to undertake their work activity safely;
- Ensuring that a suitable and sufficient assessment of the risks to the Health and Safety of all persons on the school premises are carried out;
- Promoting an interest in, and enthusiasm for Health and Safety throughout the school;
- Ensuring that appropriate employees liaise with subject advisers and safety officers on health and safety matters;
- Providing assurance to the Board of Governors on compliance with this policy and will report any material failures of compliance or other concerns regarding Health and Safety to the Board of Governors
- Providing ongoing recommendations and present an annual report on Health and Safety to the Board of Governors;
- Responsibility for dealing with visits from the Health and Safety Executive Inspectorate. Inspectors do not have to make an appointment to visit and inspect the premise and have extensive powers under Section 20 of the Health and Safety at Work Act. Although the day to day liaison with the HSE can be delegated, perhaps, to the Health and Safety Lead (Director of Business & Finance) the HSE do expect to talk to the Head Teacher on overall policy matters.

The Head Teacher and Health and Safety Lead will be responsible for reviewing and, where necessary, amending this policy.

In the headteacher's absence, the Director of Business & Finance assumes the above day-to-day health and safety responsibilities.

3.3 Health and safety lead

The nominated health and safety lead is the Director of Business & Finance they will:

- On behalf of the Head Teacher be operationally responsible for all safety duties and arrangements
- Assist the Head in the promotion of interest and enthusiasm for Health and Safety matters throughout the school
- Initiate and maintain positive measures to raise the level of safety performance
- Ensure that all are conversant with current legislation affecting the Health, Safety and Welfare of employees, pupils and others
- Ensuring all risk assessments are completed and reviewed

- Ensuring appropriate evacuation procedures are in place and regular fire drills are held
- Advise the Head of all matters requiring attention
- Create a positive approach to accident prevention and the Health and Safety of employees, pupils and others on the school premises
- Carry out investigations and periodically inspect the premises and activities in order to determine where the law is being complied with and whether the highest standards of Health, Safety and Welfare, which it is reasonably practicable to attain, are being achieved
- Liaise with outside Safety Advisers, Enforcement Authorities (Health and Safety Executive and Environmental Health Officers etc), the Fire Prevention Officer etc as appropriate
- Co-ordinate the activities of other persons with H&S responsibilities

3.4 Staff

School staff have a duty to take care of pupils in the same way that a prudent parent would do so.

Head of Department / Subject Leaders / Line Managers

In carrying out their normal functions, it is the duty of all Heads of Department / Subject Leaders / Line Managers to do everything possible to prevent injury to individuals.

Heads of Department / Subject Leaders / Line Managers will:

- Ensure that employees under his/her immediate control are familiar with those parts of the Health & Safety Policy which affect them or the activities in which they are engaged;
- Arrange for all levels of all employees under his/her immediate control to receive, where necessary, adequate and appropriate training and information in health and safety matters;
- Initiate and maintain positive measures to raise the level of safety performance within the department;
- Ensure that all are conversant with current legislation affecting the Health, Safety and Welfare of employees, pupils and others;
- Advise the Safety Officer of all matters requiring attention;
- Liaise on, health and safety matters, with subject advisers and safety officers;
- Promote an interest in, and enthusiasm for Health and Safety throughout the school.
- Implement School Health and Safety Policies, procedures and programmes;
- Ensure adequate supervision of all employees and students is provided, commensurate with their skills and competency;
- Ensure that all incidents that occur in their area are reported and investigated in accordance with the School's Incident Reporting policy.

Teaching Employees

- will, notwithstanding their individual functions, take reasonable care of their own health and safety and that of the pupils and others who may be affected by what they do;
- will co-operate with school management on matters of health and safety and will not interfere with or misuse anything provided in the interest of health and safety;
- will take special care in matters of health and safety if they teach in laboratories, workshops or other potentially hazardous areas and be aware of specific guidelines contained in technical papers, and in specialist publications from bodies such as the CLEAPPS, DATA, the Assoc. of Science Education and BAALPE;
- will report all accidents, dangerous occurrences and potentially dangerous practices and situations to Management or the Safety Adviser as appropriate.

All Staff

School staff have a duty to take care of pupils in the same way that a prudent parent would do so.

Staff will:

- Take reasonable care of their own health and safety and that of others who may be affected by what they do at work
- Co-operate with the school on health and safety matters
- Will co-operate with school management on matters of health and safety and will not interfere with or misuse anything provided in the interest of health and safety.
- Work in accordance with training and instructions
- Inform the appropriate person of any work situation representing a serious and immediate danger so that remedial action can be taken
- Model safe and hygienic practice for pupils
- Attend training sessions as required and put training into practice
- Understand emergency evacuation procedures and feel confident in implementing them

3.5 Pupils and parents

Pupils and parents are responsible for following the school's health and safety advice, on-site and off-site, and for reporting any health and safety incidents to a member of staff.

In particular:

- Students will exercise personal responsibility for the health and safety of themselves and others
- Students will dress consistent with safety and hygiene standards
- Students will respond to the introduction of staff given in an emergency
- Students will observe the health and safety rules of the Academy
- Students will not misuse, neglect or interfere with items supplied for their, and others students', health and safety.

3.6 Contractors

Contractors will agree health and safety practices with the headteacher before starting work. Before work begins the contractor will provide evidence that they have completed an adequate risk assessment of all their planned work.

4. Site security

The premises staff are responsible for the security of the school site in and out of school hours. They are responsible for visual inspections of the site, and for the intruder and fire alarm systems.

The premises staff and Taybar Security are key holders and will respond to an emergency.

5. Fire

Emergency exits, assembly points and assembly point instructions are clearly identified by safety signs and notices. Fire risk assessment of the premises will be reviewed regularly.

Emergency evacuations are practised at least once a term.

The fire alarm is a loud buzzer.

Fire alarm testing will take place once a week.

New staff will be trained in fire safety and all staff and pupils will be made aware of any new fire risks.

In the event of a fire:

- The alarm will be raised immediately by whoever discovers the fire and emergency services contacted. Evacuation procedures will also begin immediately
- Fire extinguishers may be used by staff only, and only then if staff are trained in how to operate them and are confident they can use them without putting themselves or others at risk
- Staff and pupils will congregate at the assembly points. These are by the astro turf pitch and Cliff Road entrance to the site.
- Form tutors/class teachers will take a register of pupils, which will then be checked against the attendance register of that day
- The Cover Administrator will take a register of all staff
- Staff and pupils will remain outside the building until the emergency services say it is safe to re-enter

The school will have special arrangements in place for the evacuation of people with mobility needs and fire risk assessments will also pay particular attention to those with disabilities.

6. COSHH

Schools are required to control hazardous substances, which can take many forms, including:

- Chemicals
- Products containing chemicals
- Fumes
- Dusts
- Vapours
- Mists
- Gases and asphyxiating gases
- Germs that cause diseases, such as leptospirosis or legionnaires disease

Control of substances hazardous to health (COSHH) risk assessments are completed by the Director of Business & Finance and relevant departmental staff and circulated to all employees who work with hazardous substances. Staff will also be provided with protective equipment, where necessary.

Our staff use and store hazardous products in accordance with instructions on the product label. All hazardous products are kept in their original containers, with clear labelling and product information.

Hazardous products will be kept locked securely away at times of no supervision, there will be no access to students unless within a practical subject whereby relevant risk assessments and necessary precautions have taken place and will be to hand at times of use e.g within Science and DT following CLEAPPS guidance and procedures.

Any hazardous products are disposed of in accordance with specific disposal procedures.

Emergency procedures, including procedures for dealing with spillages, are displayed near where hazardous products are stored and in areas where they are routinely used.

6.1 Gas safety

- Installation, maintenance and repair of gas appliances and fittings will be carried out by a competent Gas Safe registered engineer
- Gas pipework, appliances and flues are regularly maintained
- All rooms with gas appliances are checked to ensure that they have adequate ventilation

6.2 Legionella

- A water risk assessment has been completed in March 2018. The Premises Team is responsible for ensuring that the identified operational controls are conducted and recorded in the school's water log book
- This risk assessment will be reviewed every year and when significant changes have occurred to the water system and/or building footprint
- The risks from legionella are mitigated by the following: water temperature testing, cleaning of shower heads,

6.3 Asbestos

- Staff are briefed on the hazards of asbestos, the location of any asbestos in the school and the action to take if they suspect they have disturbed it
- Arrangements are in place to ensure that contractors are made aware of any asbestos on the premises and that it is not disturbed by their work
- Contractors will be advised that if they discover material which they suspect could be asbestos, they will stop work immediately until the area is declared safe
- A record is kept of the location of asbestos that has been found on the school site

7. Equipment

- All equipment and machinery is maintained in accordance with the manufacturer's instructions. In addition, maintenance schedules outline when extra checks should take place
- When new equipment is purchased, it is checked to ensure that it meets appropriate educational standards
- All equipment is stored in the appropriate storage containers and areas. All containers are labelled with the correct hazard sign and contents

7.1 Electrical equipment

- All staff are responsible for ensuring that they use and handle electrical equipment sensibly and safely
- Any pupil or volunteer who handles electrical appliances does so under the supervision of the member of staff who so directs them
- Any potential hazards will be reported to **Director of Business & Finance** immediately using the H&S reporting log on reception or via email
- Permanently installed electrical equipment is connected through a dedicated isolator switch and adequately earthed
- Only trained staff members can check plugs
- Where necessary a portable appliance test (PAT) will be carried out by a competent person
- All isolators switches are clearly marked to identify their machine
- Electrical apparatus and connections will not be touched by wet hands and will only be used in dry conditions
- Maintenance, repair, installation and disconnection work associated with permanently installed or portable electrical equipment is only carried out by a competent person

7.2 PE equipment

- Pupils are taught how to carry out and set up PE equipment safely and efficiently. Staff check that equipment is set up safely
- Any concerns about the condition of the gym floor or other apparatus will be reported to **the premises team** using the H&S reporting log on reception.

7.3 Display screen equipment

- All staff who use computers daily as a significant part of their normal work have a display screen equipment (DSE) assessment carried out. 'Significant' is taken to be continuous/near continuous spells of an hour or more at a time
- Staff identified as DSE users are entitled to an eyesight test for DSE use upon request, and at regular intervals thereafter, by a qualified optician (and corrective glasses provided if required specifically for DSE use)

7.4 Specialist equipment

Parents are responsible for the maintenance and safety of their children's wheelchairs. In school, staff promote the responsible use of wheelchairs.

Oxygen cylinders are stored in a designated space, and staff are trained in the removal storage and replacement of oxygen cylinders.

8. Lone working

Lone working may include:

- Late working
- Home or site visits
- Weekend working
- Site manager duties
- Site cleaning duties
- Working in a single occupancy office

Potentially dangerous activities, such as those where there is a risk of falling from height, will not be undertaken when working alone. If there are any doubts about the task to be performed then the task will be postponed until other staff members are available.

If lone working is to be undertaken, a colleague, friend or family member will be informed about where the member of staff is and when they are likely to return.

The lone worker will ensure that they are medically fit to work alone.

9. Working at height

We will ensure that work is properly planned, supervised and carried out by competent people with the skills, knowledge and experience to do the work.

In addition:

- The premises team retains ladders for working at height
- Pupils are prohibited from using ladders
- Staff will wear appropriate footwear and clothing when using ladders
- Contractors are expected to provide their own ladders for working at height
- Before using a ladder, staff are expected to conduct a visual inspection to ensure its safety
- Access to high levels, such as roofs, is only permitted by trained persons

10. Manual handling

It is up to individuals to determine whether they are fit to lift or move equipment and furniture. If an individual feels that to lift an item could result in injury or exacerbate an existing condition, they will ask for assistance.

The school will ensure that proper mechanical aids and lifting equipment are available in school, and that staff are trained in how to use them safely.

Staff and pupils are expected to use the following basic manual handling procedure:

- Plan the lift and assess the load. If it is awkward or heavy, use a mechanical aid, such as a trolley, or ask another person to help
- Take the more direct route that is clear from obstruction and is as flat as possible
- Ensure the area where you plan to offload the load is clear
- When lifting, bend your knees and keep your back straight, feet apart and angled out. Ensure the load is held close to the body and firmly. Lift smoothly and slowly and avoid twisting, stretching and reaching where practicable

11. Off-site visits

When taking pupils off the school premises, we will ensure that:

- Risk assessments will be completed where off-site visits and activities require them
- All off-site visits are appropriately staffed
- Staff will take a school mobile phone, a portable first aid kit, information about the specific medical needs of pupils along with the parents' contact details
- There will always be at least one first aider on school trips and visits

12. Lettings

This policy applies to lettings. Those who hire any aspect of the school site or any facilities will be made aware of the content of the school's health and safety policy, and will have responsibility for complying with it.

13. Violence at work

We believe that staff should not be in any danger at work, and will not tolerate violent or threatening behaviour towards our staff.

All staff will report any incidents of aggression or violence (or near misses) directed to themselves to their line manager/headteacher immediately. This applies to violence from pupils, visitors or other staff.

14. Smoking

Smoking is not permitted anywhere on the school premises.

15. Infection prevention and control

We follow national guidance published by Public Health England (PHE) when responding to infection control issues. We will encourage staff and pupils to follow this good hygiene practice, outlined below, where applicable.

15.1 Handwashing

- Wash hands with liquid soap and warm water, and dry with paper towels
- Always wash hands after using the toilet, before eating or handling food, and after handling animals
- Cover all cuts and abrasions with waterproof dressings

15.2 Coughing and sneezing

- Cover mouth and nose with a tissue
- Wash hands after using or disposing of tissues
- Spitting is discouraged

15.3 Personal protective equipment

- Wear disposable non-powdered vinyl or latex-free CE-marked gloves and disposable plastic aprons where there is a risk of splashing or contamination with blood/body fluids (for example, nappy or pad changing)
- Wear goggles if there is a risk of splashing to the face
- Use the correct personal protective equipment when handling cleaning chemicals

15.4 Cleaning of the environment

- Clean the environment frequently and thoroughly

15.5 Cleaning of blood and body fluid spillages

- Clean up all spillages of blood, faeces, saliva, vomit, nasal and eye discharges immediately and wear personal protective equipment
- When spillages occur, clean using a product that combines both a detergent and a disinfectant and use as per manufacturer's instructions. Ensure it is effective against bacteria and viruses and suitable for use on the affected surface
- Never use mops for cleaning up blood and body fluid spillages – use disposable paper towels and discard clinical waste as described below
- Make spillage kits available for blood spills

15.6 Laundry

- Wash laundry in a separate dedicated facility
- Wash soiled linen separately and at the hottest wash the fabric will tolerate
- Wear personal protective clothing when handling soiled linen
- Bag children's soiled clothing to be sent home, never rinse by hand

15.7 Clinical waste

- Always segregate domestic and clinical waste, in accordance with local policy
- Used nappies/pads, gloves, aprons and soiled dressings are stored in correct clinical waste bags in foot-operated bins
- Remove clinical waste with a registered waste contractor
- Remove all clinical waste bags when they are two-thirds full and store in a dedicated, secure area while awaiting collection

15.8 Animals

- Wash hands before and after handling any animals
- Keep animals' living quarters clean and away from food areas
- Dispose of animal waste regularly, and keep litter boxes away from pupils
- Supervise pupils when playing with animals
- Seek veterinary advice on animal welfare and animal health issues, and the suitability of the animal as a pet

15.9 Pupils vulnerable to infection

Some medical conditions make pupils vulnerable to infections that would rarely be serious in most children. The school will normally have been made aware of such vulnerable children. These children are particularly vulnerable to chickenpox, measles or slapped cheek disease (parvovirus B19) and, if exposed to either of these, the parent/carer will be informed promptly and further medical advice sought. Advise these children to have additional immunisations, for example for pneumococcal and influenza.

15.10 Exclusion periods for infectious diseases

The school will follow recommended exclusion periods outlined by Public Health England. In the event of an epidemic/pandemic, we will follow advice from Public Health England about the appropriate course of action.

16. New and expectant mothers

Risk assessments will be carried out whenever any employee or pupil notifies the school that they are pregnant.

Appropriate measures will be put in place to control risks identified. Some specific risks are summarised below:

- Chickenpox can affect the pregnancy if a woman has not already had the infection. Expectant mothers should report exposure to antenatal carer and GP at any stage of exposure. Shingles is caused by the same virus as chickenpox, so anyone who has not had chickenpox is potentially vulnerable to the infection if they have close contact with a case of shingles
- If a pregnant woman comes into contact with measles or German measles (rubella), she should inform her antenatal carer and GP immediately to ensure investigation
- Slapped cheek disease (parvovirus B19) can occasionally affect an unborn child. If exposed early in pregnancy (before 20 weeks), the pregnant woman should inform her antenatal care and GP as this must be investigated promptly

17. Occupational stress

We are committed to promoting high levels of health and wellbeing and recognise the importance of identifying and reducing workplace stressors through risk assessment.

Systems are in place within the school for responding to individual concerns and monitoring staff workloads.

18. Accident reporting

18.1 Accident record book

- An accident form will be completed as soon as possible after the accident occurs by the member of staff or first aider who deals with it.
- As much detail as possible will be supplied when reporting an accident
- Information about injuries will also be kept in the pupil's educational record
- Records held in the first aid and accident book will be retained by the school for a period of date of incident +6 years for adults and DOB +25 years for a child, in accordance with regulation 25 of the Social Security (Claims and Payments) Regulations 1979, Social Security Administration Act 1992 Section 8. Limitation Act 1980, and then securely disposed of.

18.2 Reporting to the Health and Safety Executive

The Director of Business & Finance will keep a record of any accident which results in a reportable injury, disease, or dangerous occurrence as defined in the RIDDOR 2013 legislation (regulations 4, 5, 6 and 7).

The Director of Business & Finance will report these to the Health and Safety Executive as soon as is reasonably practicable and in any event within 10 days of the incident.

Reportable injuries, diseases or dangerous occurrences include:

- Death
- Specified injuries. These are:
 - Fractures, other than to fingers, thumbs and toes
 - Amputations
 - Any injury likely to lead to permanent loss of sight or reduction in sight
 - Any crush injury to the head or torso causing damage to the brain or internal organs
 - Serious burns (including scalding)
 - Any scalping requiring hospital treatment
 - Any loss of consciousness caused by head injury or asphyxia

- Any other injury arising from working in an enclosed space which leads to hypothermia or heat-induced illness, or requires resuscitation or admittance to hospital for more than 24 hours
- Injuries where an employee is away from work or unable to perform their normal work duties for more than 7 consecutive days
- Where an accident leads to someone being taken to hospital
- Where something happens that does not result in an injury, but could have done
- Near-miss events that do not result in an injury, but could have done. Examples of near-miss events relevant to schools include, but are not limited to:
 - The collapse or failure of load-bearing parts of lifts and lifting equipment
 - The accidental release of a biological agent likely to cause severe human illness
 - The accidental release or escape of any substance that may cause a serious injury or damage to health
 - An electrical short circuit or overload causing a fire or explosion

Information on how to make a RIDDOR report is available here:

[How to make a RIDDOR report, HSE](http://www.hse.gov.uk/riddor/report.htm)

<http://www.hse.gov.uk/riddor/report.htm>

19. Training

Our staff are provided with health and safety training as part of their induction process.

Staff who work in high risk environments, such as in science labs or with woodwork equipment, or work with pupils with special educational needs (SEN), are given additional health and safety training.

20. Monitoring

This policy will be reviewed by the Headteacher every 2 years.

At every review, the policy will be approved by the full governing body.

21. Links with other policies

This health and safety policy links to the following policies:

- First aid
- Supporting pupils with medical conditions
- Accessibility plan
- Fire Safety
- Asbestos Management
- Legionella Management
- Lettings Policy
- Lone Working Policy
- Educational Visits & Journeys
- Contractors Engagement Policy
