

Go to the school website – <http://www.bridgnorthendowed.co.uk>

Click on Learning Resources -> Resources Overview

The screenshot shows the school's website with a navigation menu. The 'Learning Resources' menu is open, displaying the following options: Resources Overview, BES Portal, Class Charts, SharePoint, SAM Learning, MathsWatch, Britannica School, myON, and Office 365. A red notification banner for 'Coronavirus Update: School closure – click here for details' is also visible. The main banner features three students and the text 'Inspiring pupils since 1503'. A cookie consent banner is at the bottom.

Here you will find links and information on everything you will need to work from home.

Resources Overview

The primary online platforms that the school will use to deliver continuity of education are:

Platform	Overview
	Class Charts Through the homework setting feature, students and parents are able to access all of the instructions and resources for each lesson via the internet or mobile app, helping them to organise their daily study routine. Go to login →
	SharePoint A private online space that enables students to submit completed work for checking and feedback from teachers. View or download our how-to guides on Setting up SharePoint and Submitting Work Using SharePoint. Go to login →
	SAM Learning An online study resource for all subjects and year groups, packed with quizzes and short tests for a wide range of topics, which can either be set by the teacher or completed independently by students. Answers are marked within the software so students receive instant feedback and can compete against friends to improve their scores. Go to login →
	MathsWatch A complete online Maths platform which uses videos, online assessments, feedback tools, printable worksheets and so much more to independently develop students' mathematical skills across the full range of topics they would be expected to cover. Go to login →
	myON An extension to our Accelerated Reader programme giving students unlimited access to as many books as they wish from an enhanced digital library and the usual quizzes to complete after reading. Go to login →
	Britannica School A citable, online encyclopaedia for teachers and pupils. Information is aligned to the national curriculum, updated daily and spans a range of media including video, images and audio content. Go to login →
	Office 365 Students should feel free to use their authorised school email accounts to communicate with staff on any aspect of the work set. Typically, these may be clarification questions but they may also wish to receive interim feedback on tasks that they are currently working on. Go to login →

If you have been asked by your teachers to upload your work click on the Student Submissions button and then click on your year and your name.

Once you are in your folder you can upload your work by clicking the Upload button and selecting Files.

Please make sure to save your work using the naming system (see separate guide for further details).
